

NOTAZ

Capability Statement

NOTAZ Consulting Engineers

Engineering Expertise Built Since 1999

NOTAZ is an Australian-based engineering consultancy delivering multidisciplinary engineering solutions for steel, mining, mineral processing and industrial infrastructure projects.

Over 25 years of engineering experience and collaboration with leading global technology providers, NOTAZ supports clients from feasibility and concept development, through detailed engineering, procurement support and construction services.

Key Facts

- Founded in 1999
- Australian Presence since 2022
- +180 Industrial Projects
- Steel, Mining & Mineral Processing Specialists
- Global Project Delivery Experience

Core Capabilities

NOTAZ

Industrial & Process Plants

- Steelmaking Plants
- Electric Arc Furnaces (EAF)
- Direct Reduced Iron (DRI)
- Pelletizing Plants
- Lime & Dolomite Plants

Project Delivery Support

- Feasibility Studies
- Detailed Engineering
- Tender Documentation
- Construction Support
- Technical Due Diligence

Engineering Disciplines

- Mechanical
- Civil & Structural
- Electrical & Instrumentation
- Project Engineering
- 3D Plant Modelling

Recent Australian Projects

Mining & Minerals Processing

- Successfully delivered 15+ multidisciplinary engineering assignments across Australia's mining sector, supporting major projects in iron ore, critical minerals, graphite, lithium and industrial processing.
- Civil, Structural, Mechanical and Project Engineering services across feasibility, detailed design and project execution stages.

Energy & Infrastructure

- Power Station (180 MW), New South Wales
- Compressor Station, Victoria
- PRS Upgrade, New South Wales
- Power Station Upgrade, New South Wales
- Power Station Infrastructure Upgrade, Victoria

Experience through projects involving:

MINCORE | OGP Group

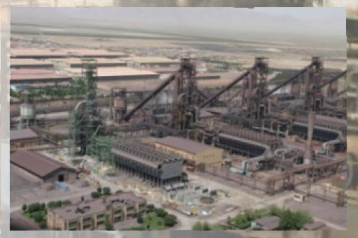

Experience Across the Steel Value Chain

NOTAZ

Over 25 years of engineering support for major projects across:

- Iron Ore Beneficiation
- Steelmaking Plants
- Pelletizing Plants
- DRI Plants
- Electric Arc Furnaces (EAF)
- Continuous Casting Facilities
- Hot Strip Mills
- Cold Rolling Mills
- CGL, CCL and Tin Plate Facilities
- Lime & Dolomite Plants
- Material Handling Systems

Working in collaboration with:

DANIELI SMS group tenova Outotec

maerz sarralle A Universe of Engineering cmi NewFer

Why NOTAZ

Engineering Depth. Global Experience. Local Support.

What Differentiates Us

- Steel & Mining Industry Specialists
- Over 25 Years of Industrial Engineering Experience
- Australian Presence with Global Delivery Capability
- Exceptional Collaboration with International Technology Providers
- Full Project Lifecycle Support
- Practical, Constructible and Cost-Conscious Solutions
- We care
